Summary

Enthusiastic MERN full Stack Developer with a solid understanding of Html, CSS, JavaScript React.js and Node.js. Passionate about building dynamic, responsive web applications and learning new technologies. Eager to contribute to impactful projects and grow in a collaborative development Environment.

Technical Skills

FRONTEND SKILLS: Html, CSS, JavaScript, React.js, jQuery.

BACKEND SKILLS: Node.js, Express.js, MongoDB.

FRAMEWORK: Bootstrap.

Projects

Online Food Ordering System|| TECH USED: HTML, CSS, JavaScript

- Define the basic structure of the website, including the header, menu, cart, and footer section.
- Creates an attractive and user-friendly menu layout and the website looks good on different screen size.
- Handles user clicks on menu items and adds them to the cart.

Expense Manager Mobile Application

- Manual entry expenses with details like date, category, amount, and description.
- Customizable categories to tailor the app to individual needs.

Spotify Clone

- The app features a visually engaging interface that mimics the core layout of Spotify, including a homepage, playlist sections, and player controls.
- The app effectively demonstrates the design and structure of the Spotify user interface using React.js for component management, JavaScript for dynamic behavior, and CSS for styling and responsiveness.
